

Technology
that makes the security of
your belongings
convenient.

Benefits of Autovault for Bankers

- An excellent tool for customer acquisition and retention
- A custodian is not needed to operate the lockers, thereby saving cost
- A premium service that will lead to higher revenues on account of higher rent
- Highly customised to meet space constraints in the bank
- 5 different locker sizes to target different customer requirements
- No empty lockers, as non-moving lockers can be replaced with in demand lockers even after installation

Benefits of Your Customers

- 24-hour access
- 3 layers of security
 - Access card
 - Pin code
 - Key
- No congestion & waiting - **Even 4 customers can access their lockers** simultaneously
- Lockers can be accessed in a **pleasant air-conditioned booth** to enhance convenience and privacy
- Customers do not have to go through inconvenience of accessing top row and bottom row lockers - **the locker comes to you in the booth**
- Robotic technology that provides High Accuracy and Reliability

2 The customer further inserts his card in the card slot and enters his 4 digit secret pin code on the LCD panel

1 The customer uses his access card to gain entry into the locker booth

3 With the automated process, the customer's respective locker comes to the table he's sitting at in the locker booth

How Autovault works

4 The customer uses his unique key to unlock his locker

5 When the customer is done with his transaction, he uses the key to lock it again and presses the return button on the LCD screen

6 The automated robotic process places the locker safely back to where it had been inside the vault

Exclusive Features of Autovault
