

D-tel Plus

DEPOSITORY SAFES

Large amounts of cash is dealt with on daily basis by cashiers while conducting over the counter transactions with customers. Till the cash is moved into the vault room, the cashiers have to store these bundled notes at their counters. Most of these counters are ordinary wooden drawer cabinets with no additional security and pose easy targets for unscrupulous elements. The **Godrej D-Tel Plus Depository Safe** is designed specifically for cash counters in banks and financial institutions that see a constant cash flow. The depository safe comes with two drawers and a storage unit beneath it, offering the functionality of dividing the cash received into petty cash and bundled notes and storing them separately.

SPECIAL FEATURE

2 Drawers with snap shut mechanism, each fitted with a Godrej 6 lever lock
